

Die Mitmach-Ausstellung für den Meeresschutz

OCEAN YOUNGSTERS DAY

A vibrant watercolor illustration of a seahorse and its young. The seahorse is the central focus, rendered in a mix of blue, purple, and green with a large, expressive eye. It is surrounded by several smaller, similarly colored young seahorses. The background is white with splatters of blue, purple, and red, suggesting water and movement. The bottom of the illustration transitions into a blue, wavy band representing the ocean surface.
